Welcome

Welcome to the new Tardigrad Newsletter!
We offer to catch-up on the key moments from the quarter, that we will be pleased to share with you.

Launch of New Wilpak Subpage

We are thrilled to announce the launch of a new dedicated webpage providing detailed information about **Wilpak Group International** innovative thermal protection solutions!

At Tardigrad Group, we pride ourselves on providing temperature-controlled solutions to the pharmaceutical industry globally, **24/7/365**. Our collaboration with Wilpak Group International allows us to offer wider innovative thermal protection solutions that ensure the safe and efficient transport of temperature-sensitive products.

Wilpak's Leading Products

InsulCap® > A thermal blanket designed to manage thermal risks at any logistic point within the supply chain, reducing the need for refrigerated trucks and cutting fuel costs.

InsulBox® > A customizable thermal box liner that provides exceptional thermal protection for smaller temperature-sensitive products.

Visit our new webpage to learn more about Wilpak's products in detail and how they, combined with Tardigrad's expertise, can help manage risks and optimize the transport and storage of your critical pharmaceutical shipments.

Participation in CPHI Milan 2024

Event > CPHI 2024
Event date > 8–10 October 2024
Location > Fiera Milano, Italy

As in previous years, the Tardigrad team participated in CPHI 2024, the world's largest pharmaceutical event, which brought together over 62,000 professionals and 2,400 exhibitors from more than 166 countries. The event united suppliers, innovators, and pharma professionals, showcasing the latest trends and advancements that shape the industry.

For Tardigrad, CPHI was an invaluable opportunity to connect with new customers and strengthen our relationships with existing clients, suppliers, and partners. We would like to extend our sincere thanks to everyone who visited our stand. It was a pleasure to meet so many familiar faces who expressed their appreciation for our work.

At Tardigrad, we are driven by our customers' needs, and we look forward to taking on upcoming projects and challenges. See you at CPHI next year!

Introduction of the New Sensitech GEO Data Logger

Introducing **TempTale GEO X** > Next-generation Temperature Monitoring for Real-Time Pharma Cold Chain Visibility and Logistics Management.

Exciting news! This year TempTale GEO X. As proud distributors, we're thrilled to present this cutting-edge solution to our valued customers. Key features of the device include real-time location visibility, monitoring temperatures from **-95 to +55 °C**, global connectivity flight compliance, a **resets to +55 °C**, global connectivity flight compliance, a **resets to +55 °C**, live product quality information and built-in battery management. The TempTale GEO X delivers a validated,

GxP-compliant solution to monitor temperature-sensitive medicines and vaccines transported globally across different modes including air, ocean, road and rail. With its robust capabilities, the TempTale GEO X ensures precise temperature control throughout the supply chain, safeguarding product integrity and compliance.

Customers benefit from enhanced visibility, actionable insights, and improved efficiency, ultimately translating to cost savings and enhanced customer satisfaction. Experience the future of temperature monitoring with TempTale GEO X.

Featured Key Study

Going the Extra Mile > When It's Urgent, We're Here 24/7

We're excited to share our latest success story where borders, limits, and weekends didn't stand in the way of delivering life-saving goods.

Case Overview

Shipment Type > Multiple temperature-sensitive shipments from Minhou County, China, to Prague, Czech Republic.

The Package

Medications and bio samples requiring precise temperature control >

Chilled > +2 °C to +8 °C

Frozen > Dry ice at -79 °C

Ultra-frozen > Dry shipper at -190 °C

The Journey

From Minhou County to Fuzhou Changle International Airport, then via Shanghai Pudong and Frankfurt, before reaching the final destination at Prague Airport. The flight was handled by Lufthansa Airlines.

The Challenge

1. Maintaining stable temperatures for multiple shipments, each with different temperature requirements.

2. Ensuring temperature stability despite varying outside conditions: +33 °C in China, +10 °C in Frankfurt and Prague, plus torrential rainstorms across Central Europe throughout the weekend.

3. Coordinating temperature control throughout the weekend, with floods hazards complicating logistics.

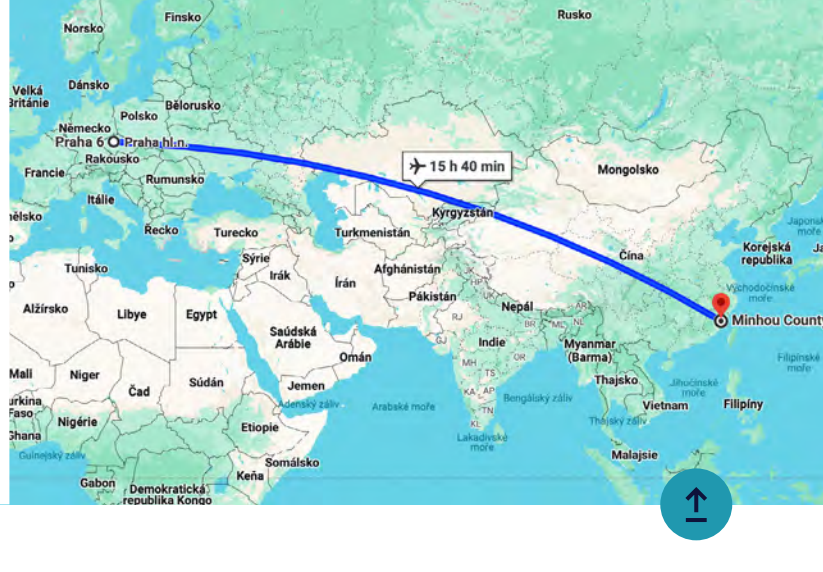

The Solution

- A system with PCM cooling elements for the chilled shipment.
- Thermoboxes with dry ice and expanded insulation for frozen goods.
- Dry shipper for the ultra-frozen shipment at -190 °C.
- All shipments were monitored with four dataloggers for full temperature tracking.

The Results

- 1.** Less than 24 hours from departure to arrival.
- 2.** Less than 2.5 days from pickup to delivery – including weekends and extreme weather conditions.
- 3.** All temperatures remained stable, as confirmed by the dataloggers.

When time is critical, we deliver your sensitive shipment safely and on time, no matter the challenges!

Celebrating a Decade of Excellence: The Czech Business Council's 10th Anniversary

This year marks a significant milestone as The Czech Business Council in Dubai celebrates its 10th anniversary. For the past decade, the Council has been a pivotal force in fostering strong business relationships and promoting Czech enterprises on the global stage. At Tardigrad, we are proud to have been a trusted partner of the Council for the last seven years, contributing to the growth and success of this dynamic network.

Our partnership with The Czech Business Council in Dubai has allowed us to connect with key industry leaders and stay at the forefront of business innovation.

As we reflect on our journey together, we are excited to continue supporting the Council's mission to enhance business opportunities for Czech on the UAE market.

As we look forward to the future, our commitment to excellence remains unwavering. Just as The Czech Business Council in Dubai has evolved over the past decade, so too has Tardigrad, as we continue to innovate and expand our offerings to meet the ever-changing needs of our customers. We are honored to celebrate this milestone with the Council and look forward to many more years of successful collaboration.

Increasing the audience – welcome Tardigrad Group to Instagram

In the previous edition of the newsletter we've talked about Tardigrad brand identity change, new design and about our growth and development. So we do not stop! Modern life dictates new terms and now we're so excited to announce that Tardigrad Group now has an Instagram account! We will publish interesting information, some photos from our daily routine, announce new events and maybe some funny stories ;) Feel free to follow us there on Instagram and drop a comment to say hello!

@TARDIGRAD_GROUP

Thank you for your attention. •—————• **Tardigrad Team**

We hope you were not bored with much information. See you soon in the next Newsletter issues.
